

Ranielli Montagna

Software Developer

EXPERIENCE

Mid-level Developer

Luizalabs

October 2023 - Present

Currently, I'm part of the Luizalabs team, the tech innovation arm of Magalu, one of the largest retailers in Brazil. I work with a diverse set of technologies, including React, React Native, Node, and Go, enabling the integration of robust and scalable solutions in a high-impact retail environment.

Tech Lead Front-end

Smarten

May 2022 - September 2023

As a tech lead, I coordinated a team of developers, ensuring code quality, application optimization, and usability. My role involved creating and maintaining a component design system, as well as making continuous improvements to existing systems. I worked with JavaScript, React, and implemented monitoring and CI/CD solutions.

Front-end Developer

SBSistemas

May 2021 - May 2022

My first professional experience, where I was responsible for developing front-end applications. I utilized tools like React, Electron, and TypeScript, implementing best practices and strengthening my technical foundation.

EDUCATION

Systems Analysis and Development

University of Passo Fundo

2020 - 2022
